

CAREER OPPORTUNITIES

Acquire a solid foundation of business and economic skills and agricultural knowledge while earning your agribusiness management degree from the University of Missouri College of Agriculture, Food and Natural Resources. Prepare for a variety of careers, including:

- + **FINANCE.** From farm inputs to the supermarket, make financial decisions both large and small and at all stages of the supply chain.
- + **SALES & MARKETING.** Buy, sell, distribute and promote agricultural food, fiber and biofuel products.
- + **MANAGEMENT.** Lead or develop companies, from small rural businesses to international corporations.
- + **POLICY ANALYSIS.** Policy meets business for work in government, commodities, agribusinesses, media and environmental interests to interpret and communicate the effects of policy.

Become a leader in the global agrifood system, whether in industry or the policy arena. Learn economic principles driving finance, commodity marketing, management, policy analysis and entrepreneurship. Make a difference in improving agricultural natural resource use.

- + Agricultural Statistics

HANDS-ON LEARNING

As an agribusiness management student, your chances to gain real-world experience through research and internships are almost limitless.

- + **UNDERGRAD RESEARCH.** Many faculty members hire undergraduate students to assist with projects. You might work on projects ranging from determining the total economic impact of an ethanol plant to designing a marketing strategy for a new genetically modified crop.
- + **INTERNSHIPS.** Internship opportunities are available with agricultural marketing cooperatives and commodity organizations; state and federal agencies; major agribusiness companies; and pharmaceutical firms. The hands-on training will prepare you for your career.

\$47,391

average full-time salary
of 2017-18 agribusiness
management graduates
